

Session # 8395 at the Annual Fall AGU Meeting 2015
Section: Global Environmental Change

Title: “Environmental, socio-economic and climatic changes in Northern Eurasia and their feedbacks to the Global Earth System and society”

We invite presentations on the biogeochemical cycles, the surface energy budget and water cycle, and climate and ecosystem interactions in Northern Eurasia (land cover and land use, atmospheric aerosols, soil, and permafrost changes that affect and are being affected by climate and ecosystem change), 'human dimensions', and tools to address the Northern Eurasia studies. The particular foci of this Session will be the studies of changes that impacts regional sustainable development. We invite also the early career scientists associated with (or interested in) the Northern Eurasia Earth Science Partnership Initiative and its continuation, Northern Eurasia Future Initiative
